JOLLY HOLIDAY

MAKE YOUR DREAMS COME TRUE!

This year Santa was very generous. Instead of funny socks and awful shirts you were given a lottery ticket and ... won 50,000\$.

Now it's time to invest the money. Here are some options. Choose one and justify your choice. Use your imagination and have fun!

OPTION 1

Christmas socks

You hate Christmas socks but they are a very popular gift. Millions of pairs of socks are sold each year. People buy them for children and adults. They're colourful and funny and you have a chance to create a special line of luxurious Christmas socks designed by a famous singer. They will be gold-encrusted with pearls and diamonds. The aim is to sell them to limited number of customers and make them the most desired Christmas gift among the richest.

OPTION 2

Christmas jewellery

Is there a better way of celebrating Christmas than buying a new piece of jewellery? Rings, bracelets, necklaces, earrings... Silver, gold or ... at least that's what people think. You can invest in a cheap but nice jewellery that looks expensive and copies ideas of the most famous jewellery designers. If you can't afford Cartier you will definitely like Kattier.

OPTION 3

Christmas catering

You can't cook? You have no time? Don't worry! Our restaurant will provide you with the most delicious Christmas delicacy. Pies, turkey, puddings - we have it all! Just tell us how much you can spend and we'll send you menu. Surprise your family this year!
This idea seems to be a perfect investment.
